

MEA FOOT SCRAPER CASINGS

SIMPLE AND CLEAN

MEA FOOT SCRAPER CASINGS

FOOT SCRAPER CASINGS MADE OF GRP OR POLYMER CONCRETE

MEA FOOT SCRAPER CASINGS

MEA foot scraper casings effectively protect entrance areas of houses from any kind of dirt which is carried in from outside on shoes (earth, gravel, sand, dust, etc.). Our foot scraper casings are made of high quality GRP or polymer concrete. They also offer a possibility of connection to the sewage system.

MEA FOOT SCRAPER CASINGS

- > Foot scraper casings keep the dirt permanently outside
- > Easy to install and to clean
- > Frost and heat-resistant
- > Extremely sturdy and durable
- > Four different covers available
- > Unbreakable and extremely stable
- > Excellent price/performance ratio
- > Aesthetic and environmentally friendly

MEARIN FOOT SCRAPER CASINGS

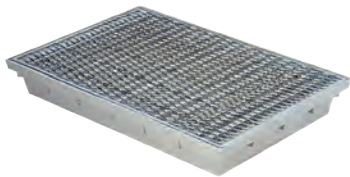

SYSTEM OVERVIEW

MEARIN foot scraper casings are made of glass-fibre reinforced composite. The box as well as the the edges are made of high-quality GRP. The casing is designed to be used with different, interchangeable mats. The foot scraper boxes

are available in two different dimensions as a set. The covers can also be ordered separately. At the bottom side of the foot scraper casing there is a possibility of connection for a vertical outlet Ø 75 mm.

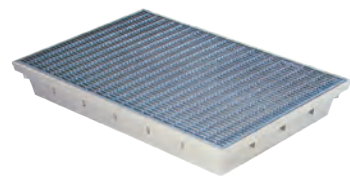

Dimensions:
600 x 400 x 80 mm
750 x 500 x 80 mm

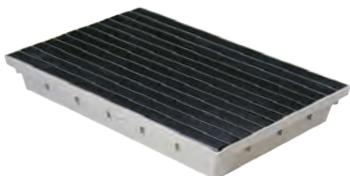

Dimensions:
600 x 400 x 80 mm
750 x 500 x 80 mm

Dimensions:
600 x 400 x 80 mm
750 x 500 x 80 mm

Dimensions:
600 x 400 x 80 mm
750 x 500 x 80 mm

Dimensions:
600 x 400 x 80 mm
750 x 500 x 80 mm

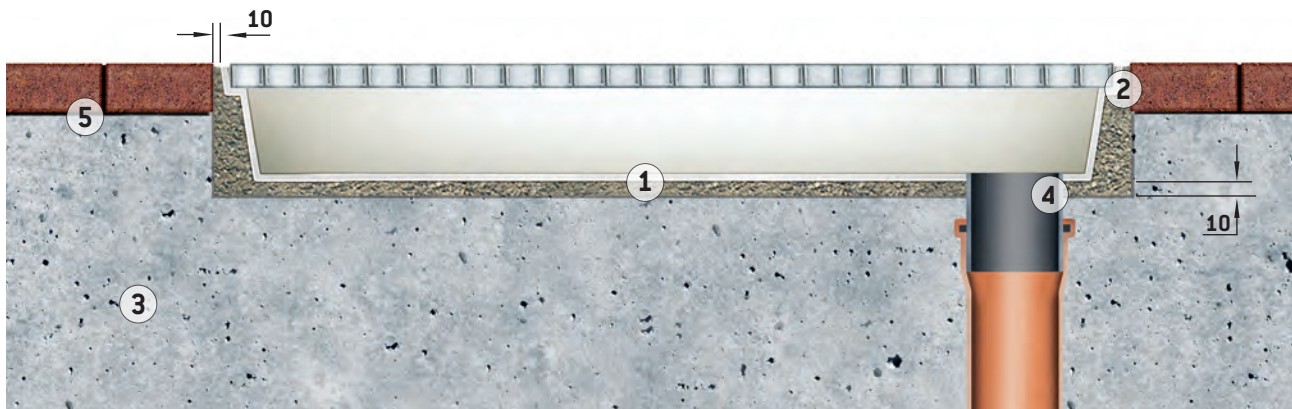

Accessories:

- > MEARIN Foot scraper casing made of high-quality glass-fibre reinforced composite
- > MEARIN Foot scraper casing including a stretched metal grating available as a set
- > Cover: Stretched metal grating also available individually
- > MEARIN foot scraper casing including a grey ribbed mat available as a set
- > Cover: Grey ribbed mat also available individually
- > MEARIN foot scraper casing including a mesh grating 30/10 available as a set
- > Cover: Mesh grating 30/10 also available individually
- > MEARIN footscraper casing including a mat with black rubber profile available as a set
- > Cover: Mat with black rubber profile also available individually
- > HT connection piece Ø 75 mm to Ø 110 mm
- > Intermediate support for doormat trays available for both dimensions

MEA GRP THE PREMIUM MATERIAL

MEARIN doormat trays installation situation in a concrete bed

MEARIN foot scraper casings can be installed either in connection with a concreted surface or with a load-bearing compacted subsoil in a gravel bed.

- 1- Box for doormat to be layed in the mortar bed
- 2- to lay paving grout elastic
- 3- Concrete base C12/15 in front of building entrance

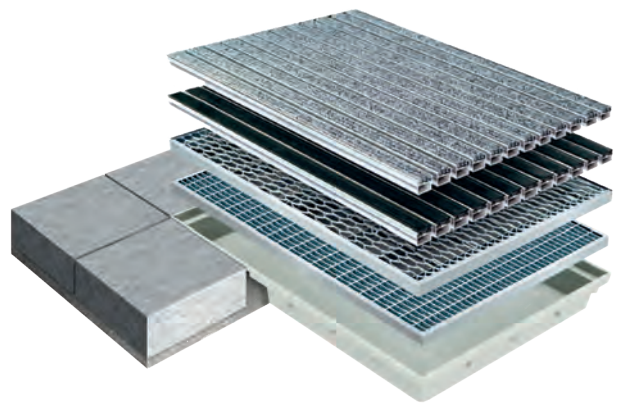

- 4- Connection for vertical outlet $\varnothing$ 75 mm
- 5- Adhesive plate covering

MEARIN foot scraper casings made of GRP

GRP stands for glass-fibre reinforced composite material, and is used in a broad range of applications with high requirements. But not all GRP types are equal, as the quality and specific characteristics sometimes differ considerably.

Thereby, we rely on SMC technology, (Sheet Moulding Compound) - a composite of polyester resin, mineral filler materials, additives and glass-fibre mats.

The MEARIN foot scraper casing is a durable product with a high value retention.

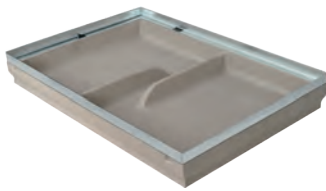

MEAGARD FOOT SCRAPER CASING

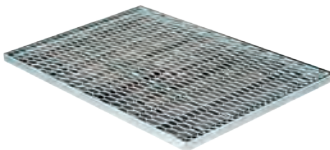

SYSTEM OVERVIEW

MEAGARD foot scraper casings are made of high-quality polymer concrete including galvanised steel frame, bars and preformed drain outlet. The foot scraper boxes are available in three different dimensions as a set and the covers in the

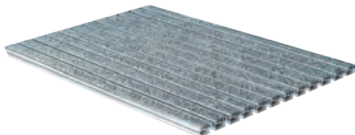

respective sizes also individually. At the bottom side of the foot scraper casing there is a possibility of connection for a vertical outlet $\varnothing$ 110 mm.

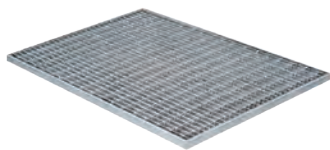

Dimensions:
length/width
600 x 400
750 x 500
1000 x 500

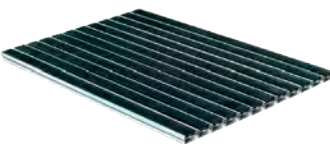

Dimensions:
length/width/height
600 x 400 x 20 mm
750 x 500 x 20 mm
1000 x 500 x 20 mm

Dimensions:
length/width/height
600 x 400 x 20 mm
750 x 500 x 20 mm
1000 x 500 x 20 mm

Dimensions:
length/width/height
600 x 400 x 20 mm
750 x 500 x 20 mm
1000 x 500 x 20 mm

Dimensions:
